

The American Legion Lloyd C. Hill Post

It is with deep regret that the members of the Lloyd C. Hill Post learn of the contemplated departure of their post commander, Mr. A. B. Williams. Mr. Williams has been directly connected with the post activities since its inauguration and a great deal of the success of the organization has been due to his untiring efforts. Mr. Williams leaves the first of May to accept an important position with The Phelps Dodge at Pinar de Nacozari.

WOMAN'S AUXILIARY—

The Woman's Auxiliary of the Lloyd C. Hill Post of The American Legion met in the assembly room of The Hill School last Friday afternoon for the purpose of organizing a permanent organization. Mrs. E. A. Wittenau presided as temporary chairman. An election of officers for the remainder of the year was held after which applications for membership were received and referred to the proper committees. Much enthusiasm was displayed by all present and it was the consensus of opinion that the Auxiliary should support the Legion in all of its activities. Just to get better acquainted and as a farewell to those who are leaving it was decided by those present to give the Legion men a feed and entertainment Friday evening April 29th.

The following officers were selected for the remainder of the year: President Mrs. E. A. Wittenau, Vice President Mrs. J. J. Roscoe, Secretary Mrs. W. N. Moore, Treasurer Miss Verda F. Hickox, Historian Mrs. R. P. Kyle.

Com. York Terrill has accepted a position with the state highway commission and is at present located at Risdon Arizona.

LABOR AND THE LEGION—

As a means of expressing the harmony existing between organized labor and the Legion, labor bodies have on many occasions come out with unqualified endorsement of the veteran's organization. One of the latest endorsements is that of the central labor union of Willmar Minn., which recently adopted a resolution declaring that since the object of

Austin F. Hamsom Post of that town "is to work for the uplifting of humanity and the betterment of their fellowmen" and the union's aim "is identical therewith", the unionheartily endorses the post in its undertakings in order to maintain harmony and a mutual understanding and cooperation.

Com. J. W. Scott has left for Beeville Texas, to visit with his parents. Henry Scott his brother is engaged in the lumber business in that place.

Com. W. H. Mershon is now in public employ in Phoenix Arizona.

Com. Solomon Holguin is visiting in El Paso.

Com. Huber Hill and wife are visiting relatives in Flagstaff, Ariz.

BOY SCOUTS—

The boy scouts are eagerly looking forward to their summer camp which is to be held as soon as possible after the closing of school. Plans are now being formulated whereby the boys can spend at least a week in camp under strict Scout rules, which rules consist mainly in that each boy shall have a good time. About thirty boys will be in the camp and equipment and supplies are now being gathered. The camp will be in charge of a scout master and an experienced army cook is to be secured to take charge of the commissary. Further details will be announced later.

Through the courtesy of Mr. Crowfoot the Scouts have secured permission to use the No. 6 tank for bathing purposes this summer. This will be an excellent opportunity for those boys who are studying for the higher ratings, as it is necessary to be able to swim a certain distance and be able to handle himself in the water. In order to take advantage of this offer the Scouts must be accompanied by a Legion member. Any Legion man who would like to take the Scouts up to the tank should notify Scout Master Chrisman.

Com. H. E. Rogge left for Detroit for a short visit after which he will

visit with his parents in Richmond Michigan.

Com. Steve Spinach is spending a few weeks at the coast. His address is care Y. M. C. A. Los Angeles.

Com. S. C. Redd has resigned as construction engineer with the Arizona Copper Company and has accepted a position on the Springerville highway as engineer.

The Boy Scouts have secured the small building next to the P. D. Dispensary, that was formerly used as a part of the High School. The building is being equipped as a Scout barracks and the gym apparatus formerly used by the Morenci Club is being installed.

NOTICE OF INTENTION TO SELL STOCK OF MERCHANDISE IN BULK

TO WHOM IT MAY CONCERN:

TAKE NOTICE: That The Becker Franz Company, a corporation, duly organized under the laws of the State of Arizona, and engaged in the general merchandise business at Clifton, Arizona, and occupying premises known as Frisco Avenue, Clifton, Arizona, Greenlee County; the business of said corporation being principally the sale of merchandise at retail; in small quantities, does intend to and will sell at a single transaction, and not in the regular course of its business, the entire stock of merchandise now contained in said store premises, Frisco Avenue, Clifton, Greenlee County, Arizona, including fixtures, good-will and everything appertaining thereto.

The sale and transfer of said merchandise and property will be made on Monday May 9, 1921 at the hour of 10 o'clock A. M. in the said store premises, Frisco Avenue, Clifton, Greenlee County, Arizona.

This notice is given pursuant to the provisions of Section 5249, Chapter 7, Title 51, Revised Statutes of Arizona, 1913, as amended by the Session Laws of 1915, page 82, and in compliance therewith.

U. S. NAVY OFFERS OPPORTUNITIES TO SCHOOL BOYS

The Hospital Corps of the U. S. Navy is about to undergo a large expansion, according to a letter received from Commander Thos. A. Symington, U. S. N., commanding the Navy Recruiting Headquarters in Los Angeles, California by Postmaster W. B. Kelly, today. The authorized strength of this Corps is some 7000 men and the members serve with the Navy afloat and ashore, and with the marines in the West Indies, Nicaragua, in the Orient, South Sea Islands, and in fact wherever the Navy may be operating—which covers the world. Under the contemplated expansion of this popular branch of the Navy, which has been closed to enlistments, the Navy Recruiting Station commanded by Commander Symington, is authorized to enlist 10 men each week in addition to men for general service in the Navy. It is not an easy matter to enlist in this desirable branch of the Navy, as a man must be between the ages of 18 and 25 years, be an American citizen, physically sound and with at least an education equivalent to two years in high school. If he can measure up to this standard

before the 29th day of April, 1921 by Gustav A. Franz, secretary and treasurer of The Becker Franz Company, a corporation of Arizona, known to me to be the person whose name is subscribed to the foregoing, as the lawful act and deed of said corporation.

the accepted man is sent to the U. S. Navy Hospital Corps School, at Great Lakes (Chicago) Illinois, where he receives intensive instruction in Toxicology, Chemistry, Materia Medica, Pharmacy, Anatomy, Physiology, Sanitation, Hygiene, Nursing, First Aid, Emergency Surgery and many other kindred subjects.

Commander Symington, in his letter also calls attention to the fact that young men leaving school, who are unable to attend college, are thus given an excellent opportunity to improve their education and fit themselves for better positions in civil life, all while being exceptionally well paid. Professions where this training is of value in civil life include Medicine, Surgery, Pharmacy, Public Health Work, Sanitation, Dentistry and other allied branches.

Enlistments are also open in practically all other branches of the Navy. Application for enlistment can be made at 318 Union Oil Building, Los

Angeles, California, where further information may be obtained upon request.

MODESTY IS HER MIDDLE NAME, AND SHE WEARS A HOOP AROUND HER SKIRT! El Paso, Tex., April 27—Here is modesty supreme.

Whenever high winds sweep down the streets of this city there is one woman who is always prepared. She wears the hoop of a small barrel suspended just above the hem of her skirt. She takes no chance that sand may blow in the men's eyes.

DENVER TO KEEP DOWN DUST—Denver, Colo., April 27.—The hundred thousand gallons of oil will be used this summer to keep down dust on Denver streets, according to the estimates. Oil has been found cheaper than water and more satisfactory.

DECLARED \$1.25 DIVIDEND New York, April 29.—The United States Steel corporation has declared quarterly dividends of \$1.25 on common, and \$1.75 on its preferred.
